TRAINING TIPS BROUGHT TO YOU BY MUTTS WITH MANNERS

K9 Behavior Husbandry

As a proactive dog owner, you care about your dog's physical health and visit the vet for annual checkups, medications, injuries, or when your dog is not feeling well. But what about your dog's mental health? Dogs love to learn! A professional trainer can assist you and your dog of any age with a variety of behavior husbandry needs.

What is Behavior Husbandry? Training and enrichment! By providing these opportunities to your dog you are promoting his overall well-being, creating valuable behaviors, reducing/eliminating undesirable behaviors, building a trusting relationship, and providing mental stimulation for a happy and healthy life.

Mutts With Manners- We are a positive reinforcement-based professional dog training business serving all of Galveston County. Heather, Laura, and Trelle have nearly 30 years of training experience with a variety of species, from dogs and birds to turtles and seals, and are members of the Association of Professional Dog Trainers.

Learn - No dog is too old to learn! We offer a wide variety of group classes: basic and intermediate obedience, STAR puppy, agility, recall, leash walking, socialization, reactivity classes (for dogs that bark/lunge around other dogs or people), and much more. We offer private lessons on all our services too, at two island locations or at your home. Our website calendar has more information- www.muttswithmanners.com.

Problems- Do you have a puppy that is biting or being destructive? Did you just adopt your new best friend and have questions? Do you have a fearful or reactive dog that you're uncomfortable without in public? We can help with all these issues! Problems do not resolve themselves, actually, they get worse. We can help bridge that communication gap so everyone in the home is happy!

The Galveston Island Humane Society recommends Mutts With Manners for all your K9 training needs. We've proudly been serving Galveston County since 2009 and offer classes here at the clinic as well as private lessons to fit your goals for your four-legged best friend.

Until next time, keep it pawsitive!
